

Bug no 13 – Company Hierarchy Mobile View Not Responsive

Title: Company Hierarchy layout breaks and becomes unreadable in mobile view

Severity: Medium (Affects usability on mobile devices)

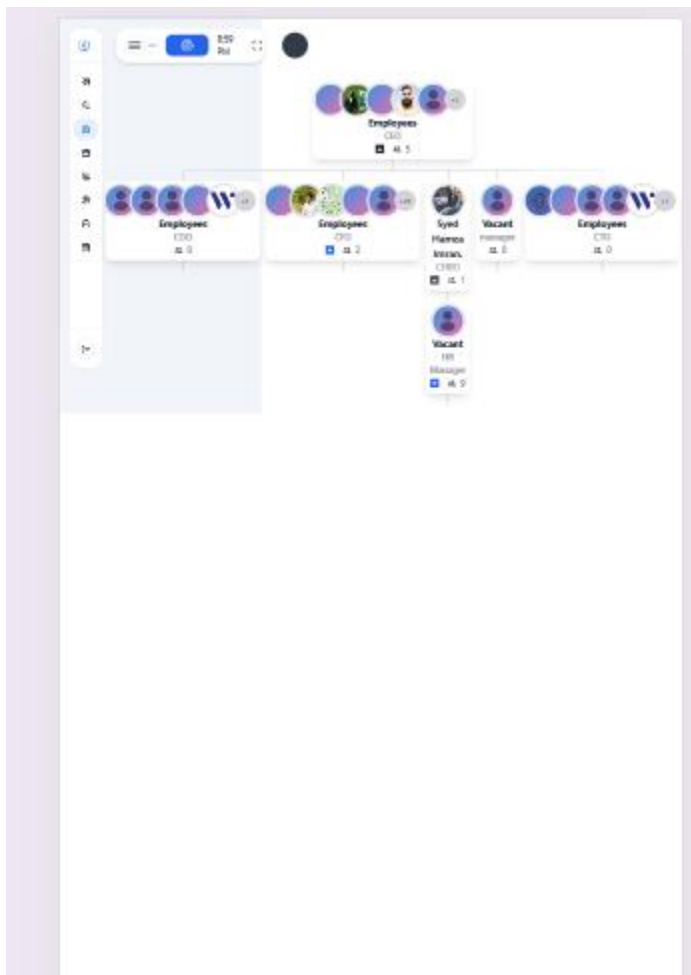

Priority: High (Impacts accessibility for mobile users)

Expected Result:

- The hierarchy should be stacked or displayed in a vertical scrollable format.
- Each card should be fully readable without horizontal scrolling.
- Names, roles, and counts should remain clearly visible.

Actual Result:

- Text and avatars appear very small and crowded.
- Some role names are truncated.
- Requires zooming IN or OUT horizontal scrolling to read details.

Bug 14 – Miscalculation of Employee Counts in Karachi Branch

Description: The dashboard shows incorrect calculations for the total number of employees and the number of absent employees for the Karachi branch.

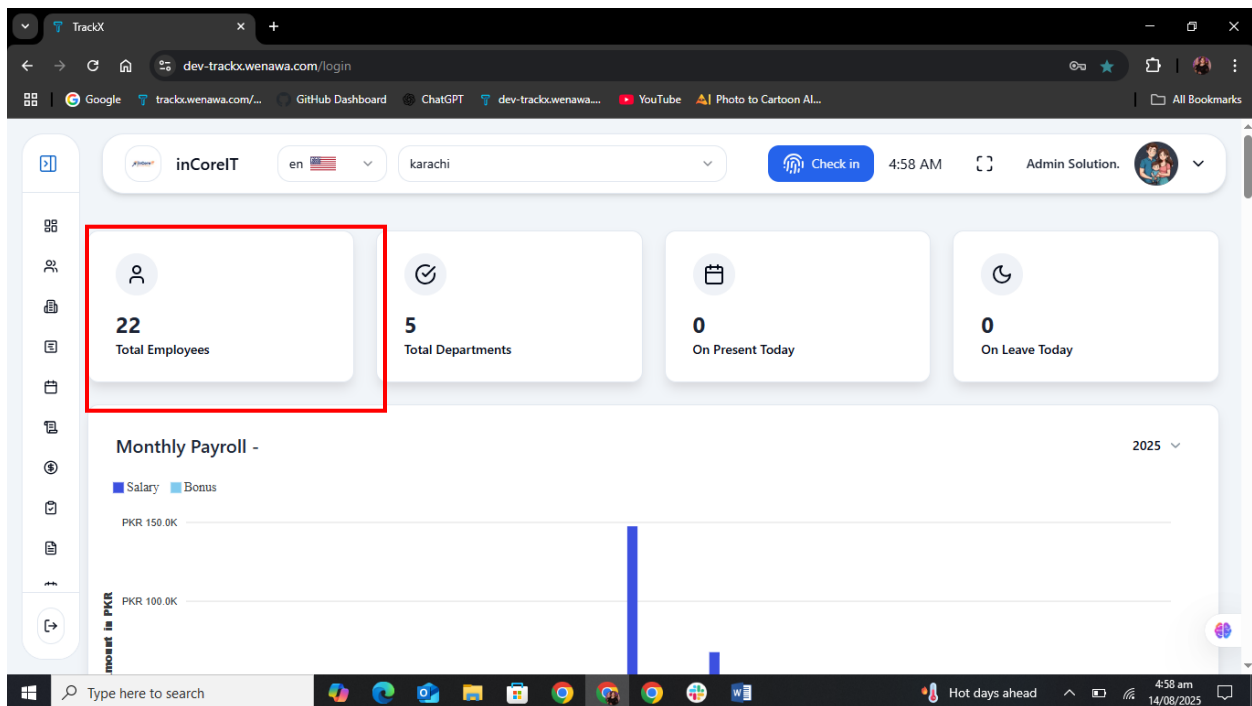

Steps to Reproduce:

1. Log in to the application.
2. Navigate to the dashboard.
3. Compare total employees and absent employees for Karachi branch with actual records.

Actual Result: Displayed numbers do not match the actual count, showing miscalculated totals.

Expected Result: Employee counts should accurately reflect real data from the database.

Severity: Major (affects accuracy of data and decision-making).

Bug 15 – Dashboard Data Missing for Atif Aslam (HR Role)

Description: When logged in as Atif Aslam (HR role), the dashboard does not display any employee-related data such as total employees, department counts, present, and leave statistics.

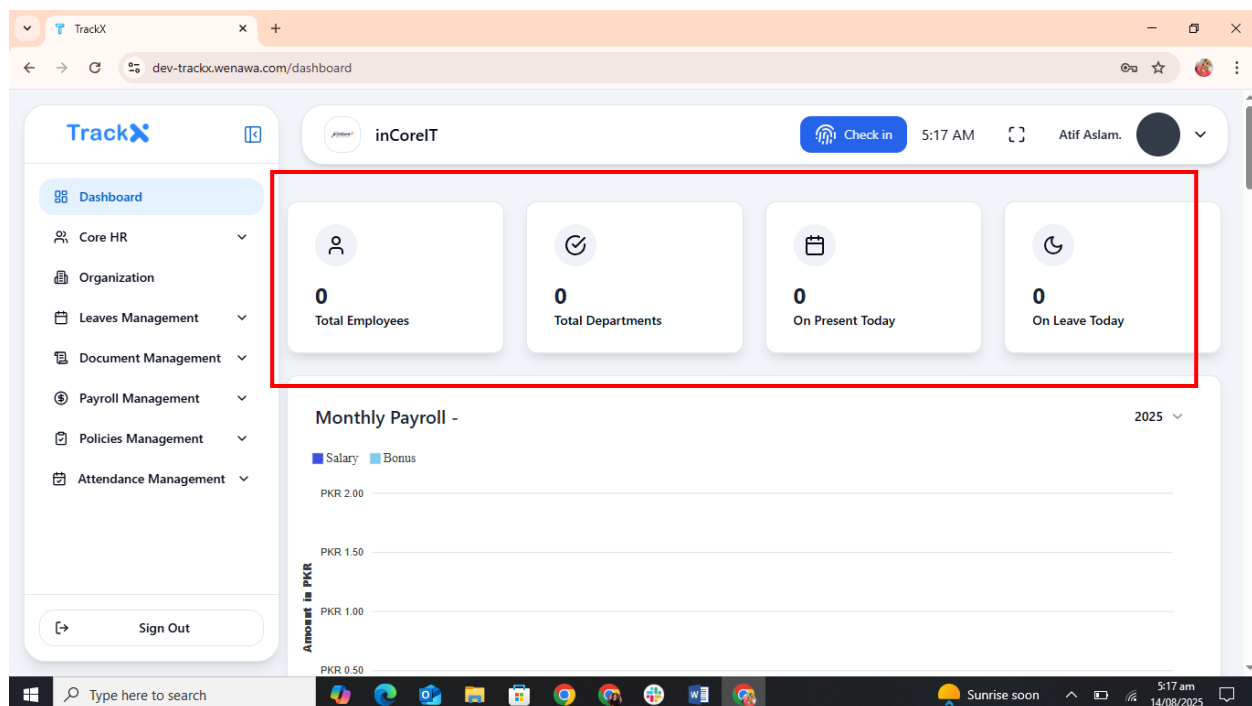

Steps to Reproduce:

1. Log in as Atif Aslam (HR role).
2. Open the dashboard.
3. Observe the employee statistics section.

Actual Result: No employee data is displayed; sections are empty.

Expected Result: Dashboard should display relevant employee data for HR role users.

Severity: Major (impacts user's ability to perform HR functions).

Bug 16 – Shift Data Missing for Atif Aslam (HR Role)

Description: When logged in as Atif Aslam (HR role), the "Shift" section does not display any shift-related information.

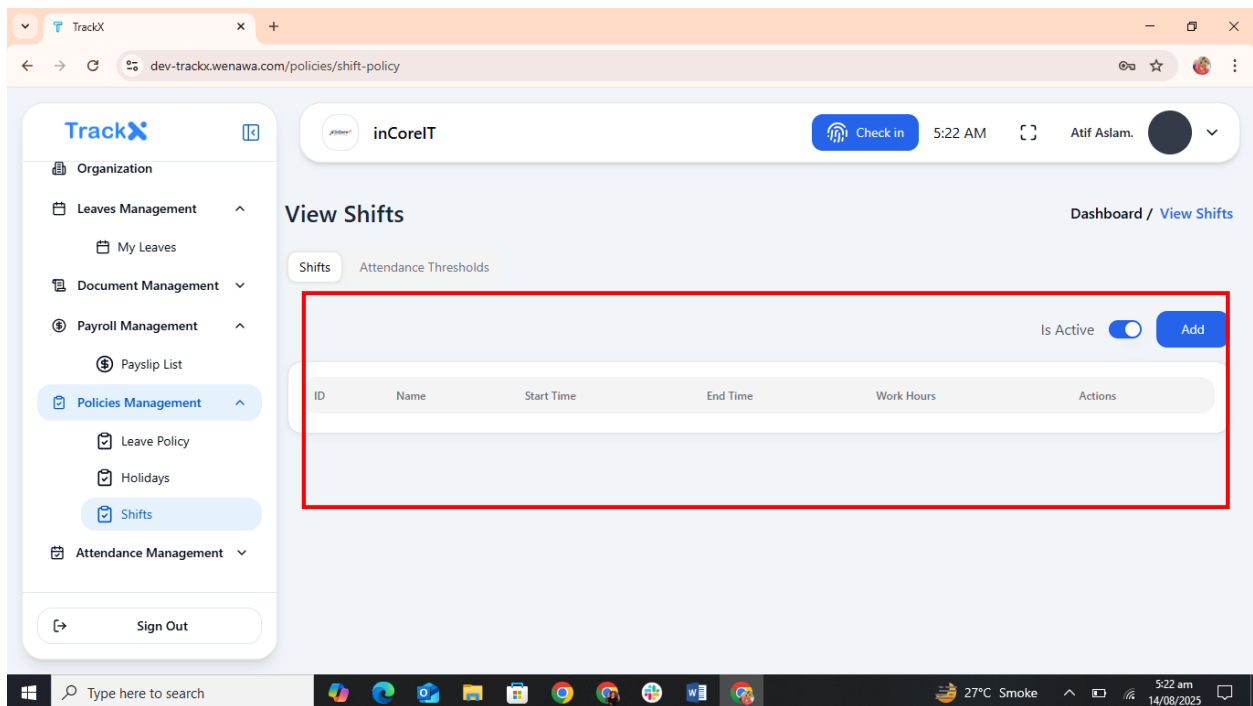

Steps to Reproduce:

1. Log in as Atif Aslam (HR role).
2. Navigate to the "Shift" section.
3. Observe the displayed data.

Actual Result: No shift data is displayed.

Expected Result: HR role users should be able to view all shift-related information.

Severity: Major (impacts operational visibility for HR role).

Bug 17 – Checklist Table Overlapping Fields and Data

Description: In the checklist section, the table layout overlaps with fields and data, making it difficult to read.

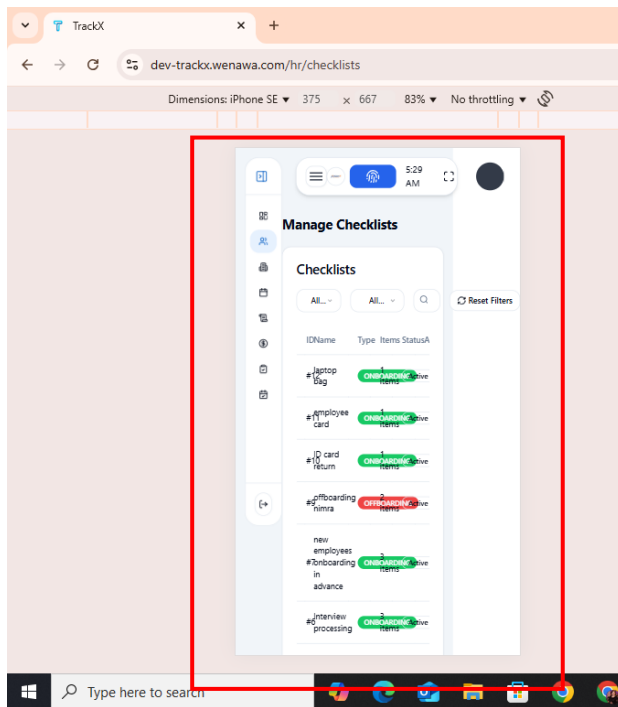

Steps to Reproduce:

1. Log in to the application.
2. Navigate to the checklist section.
3. Observe table formatting.

Actual Result: Table columns and data overlap, causing readability issues.

Expected Result: Table should be properly aligned with fields and data clearly separated.

Severity: Medium (affects readability and usability).

Bug 18 – Checklist Search Field Compressed

Description: The search field in the checklist section is compressed, making the entered text partially or completely unreadable.

Steps to Reproduce:

1. Log in to the application.
2. Navigate to the checklist section.
3. Type into the search field.

Actual Result: Text is hidden or clipped due to field compression.

Expected Result: Search field should be wide enough to display the typed text fully.

Severity: Minor (affects user experience but not functionality).
