Wenawa

BUG REPORT

Tester: Mahnoor Hassan

Bug

Title:
There is no functionality to change password.
Description:
 As a QA tester, I observed that the website lacks a "Change Password" feature in the user account or settings section. Users are unable to update their password after registration or login, which is a critical security and usability issue.

 Steps to Reproduce:

1. Open the website: https://trackx.wenawa.com/
2. Wait for the home page to load
3. Log in with valid credentials
4. Navigate towards profile update on right corner
5. Go to the "Account Settings" or "Profile" section.
6. Look for an option labeled "Change Password" or similar.
7. Observe that no such option or functionality is available.

✅ Expected Result:

User should see a "Change Password" option and be able to update their password.

❌ Actual Result:

There is no option or functionality available to change the password.

💻 Environment:

- Platform: Web
- Browser: Chrome Version 137.0.7151.122 (Official Build) (64-bit)
- OS: Windows 10 pro

Severity: High
Priority: High
Status: New

This issue directly impacts user account security. Without the ability to change their password, users cannot respond to potential security threats (e.g., compromised credentials). It's a core feature expected in any user account system, making it both a high-severity and high-priority issue that should be addressed immediately.
