Wenawa

BUG REPORT

Tester: Mahnoor Hassan

Bug no 1

Title:
Profile picture Update with wrong file format.

Description:
As a QA tester, I observed that the uploading incorrect file format in profile picture update section like (word file, doc file , pdf) it is successfully updating the profile picture with invalid file format. Expect this the website should generate and error or a warning notification to update a correct format file in this section.

Steps to Reproduce:

1. Open the website: https://trackx.wenawa.com/
2. Wait for the home page to load
3. Log in with valid credentials
4. Navigate towards profile update on right corner
5. Click on Camera button to update profile picture
6. Upload wrong format file like doc,pdf
7. Look at the notification "user update successfully.

✅ Expected Result:
The file should not be updated with wrong file format and should generate error message in notification bar.

❌ Actual Result:
It is successfully updating the profile picture with invalid file format.

💻 Environment:

- Platform: Web
- Browser: Chrome Version 137.0.7151.122 (Official Build) (64-bit)
- OS: Windows 10 pro

Bug no 2

Title:
Notification bar have no text data when invalid data is uploaded as a profile picture.
Description:
As a QA tester, I observed that the uploading incorrect file format in profile picture update section it doesn't show any text in notification bar in red alert box. Expect this the website should generate and error or a warning notification to update a correct format file in this section. Like (User profile is not updated successfully)

Steps to Reproduce:

8. Open the website: https://trackx.wenawa.com/
9. Wait for the home page to load
10. Log in with valid credentials
11. Navigate towards profile update on right corner
12. Click on Camera button to update profile picture
13. Upload large file picture
14. Look at the notification "   " text is empty in red alert box.

✅ Expected Result:
When wrong file is uploaded it should generate error message in notification bar like (User profile is not updated successfully)
❌ Actual Result:
The notification bar is empty
💻 Environment:
